POS Pros Overview

Choosing the right POS for your business has always been a difficult chore until now. You know you need a POS to not only process payments but also run your operations efficiently. Maybe you want to capture customer data for marketing to increase your revenue, manage inventory and ordering, maybe run a loyalty program, back up your data, track profitability, or perhaps facilitate scheduling & time clock, manage payroll and accounting and possibly so much more. <https://www.yourpospros.com/>

Visa Cybersource Overview

Our Cybersource platform is one of the largest hubs of tech and finance providers in the world. It is an open architecture platform, meaning merchants, developers, acquirers, software solutions and providers connect to each other via the platform. And with one integration, they can work together, and with you, to create the payment solutions you want. <https://www.cybersource.com/>

Davo: Sales Tax on Autopilot

DAVO automates every step of the sales tax process — from collecting to filing to paying. It works seamlessly with your POS, so there's nothing you need to do. And because DAVO guarantees* your taxes will be paid on time and in full, there's nothing to worry about either. <https://www.davosalestax.com/>

SALIDO

SALIDO is the Restaurant OS, a single platform that unifies restaurant operations under one login. Whether a single or a multi-unit operator is needed, we take an enterprise level approach to streamlining all of your merchants' operations. SALIDO was created with the best interests of restaurant operators in mind. We want your merchants to focus on what matters to them most, their customers. Leave the rest to us.
